

The CONTAMINOMICS* Programme

The business sense of contamination control

The CONTAMINOMICS* Programme from KIMBERLY-CLARK PROFESSIONAL* is a complete system offering that can help you improve the performance of your laboratory and cleanroom. Our range of cutting-edge brands and products can enhance your contamination control to protect your most valuable assets: your processes, your people and your reputation.

The programme looks at new ways to maximise your operational efficiency, increase productivity, minimise risk and standardise the processes in your controlled and critical environments. Working together, we can safeguard your operations, improve profitability, gain greater peace of mind and much more.

The Science of KIMTECH* Brand

Introducing KIMBERLY-CLARK PROFESSIONAL*

KIMBERLY-CLARK PROFESSIONAL* is a market-leading manufacturer of innovative products and systems for your washroom and workplace. Its solutions include outstanding brands like SCOTT®, KLEENEX®, WYPALL*, KIMTECH*, KLEENGUARD* and KIMCARE*.

Whatever your individual needs are, our combination of trusted products for laboratories and cleanrooms will help you improve cleanliness, contamination control and the protection of your people.

Our comprehensive range of gloves, masks, apparel and wipers have been designed specifically to meet the demands of the pharmaceutical, micro-electronics and laboratory industries. In this brochure we will introduce you to just some of the exceptional products from two of our brands, KIMTECH SCIENCE* Brand for laboratories, and KIMTECH PURE* Brand for cleanrooms.

The Science of Protection

KIMTECH SCIENCE* Product Range

The general Laboratory and Safety market requires a diverse range of products that will protect users from exposure and the laboratory itself from contamination.

Whether gloves, apparel, masks or wipers are used in life science research labs or in petrochemical quality assurance labs, you can rely on KIMBERLY-CLARK PROFESSIONAL* to have a quality-proven product to meet your particular needs.

Gloves

Our wide range of laboratory gloves provides the vital hand protection and comfort needed in the laboratory and safety environment and ensure that all your needs are met. Formerly known as KIMBERLY-CLARK* and SAFESKIN* Exam Gloves.

Wipers

A range of wipers designed specially to handle a variety of delicate wiping tasks in a laboratory such as surface/parts cleaning, glassware cleaning and instrument cleaning.

Lab Care

With its polyethylene backing the KIMTECH SCIENCE* Bench Top Protector provides excellent slip resistance, creates an effective fluid barrier and resists even harsh chemicals.

Facial Protection

Our TECNOL* respirators and KIMTECH SCIENCE* pleated face masks provide excellent bacterial and particle filtration, helping to protect your process and your people from contamination.

Lab Coats

With a 3-layer fabric engineered to deliver a combination of strength, durability and protection, our lab coat protects the user against low risk liquid chemicals.

The Science of Contamination Control

KIMTECH PURE* Product Range

Whether you operate in critical or controlled environments, sterile or non-sterile, KIMBERLY-CLARK PROFESSIONAL* provides a complete line of gloves, masks, apparel and wipers to protect your products, processes and people

Gloves

Our KIMTECH PURE* Glove line provides the consistent level of quality you demand. Providing a full range of sterile and non-sterile, latex and synthetic gloves to meet your cleanroom requirements of barrier and process protection with a marketing leading brand you can trust.

Wipers

Our low-lint, high-performance wipers come in a range of dry and pre-saturated formats and are recommended for surface wiping in ISO Class 4 or higher cleanroom environments.

Apparel

The A5 Sterile Cleanroom Apparel Range provides the vital body protection and comfort needed in the cleanroom environment with innovative features such as CLEANDON* Technology for easy gowning. The breathable SMS fabric gives the apparel a cloth-like feel while providing the required vital body protection and comfort.

Masks

KIMTECH PURE* Face Masks provide the essential process protection and comfort needed in the cleanroom environment, helping you to reduce the risk of contamination. Available in a range of sterile and non-sterile, our quality masks have an excellent particle and bacterial filtration, breathability, low lint levels and flexible fit features.
